

REPEATER OWNERS MEETING 6/1/19

Called to Order at 1000 hrs

Lance is not available for the meeting due to a broken ankle. Rick Tannehill W7RT was scheduled to run the meeting, but his wife passed away this morning. Brian McCarthy AK7F stepped in to handle the meeting.

Introductions

Since the data was not available at the meeting the coordination activity from the past year should be posted on the website

No major issues were noted by the owners

Hot Spot frequency recommendations should be posted with the band plans and will be proposed by the Coordination Committee by year end for comment.

Brian explained the process for getting the repeater listing published on the web and on paper. There will be a new paper listing this fall.

Q&A

Are we still using the PDF application form? Yes the fillable form and the RTF form are both available. Brian is looking at an online version from Google forms.

Dead repeaters? We explained we are not a policing agency. We request that every coordination be updated every 2 years and take steps to de-coordinate those that don't respond. However, if someone knows of a repeater that is not on the air please drop the coordination committee an email and we'll try to contact the responsible parties to verify its existence.

Finally Lance Halle was returned for another year as The Coordination committee chair by a vote of those present.

Attendees:

CALL	NAME	RPTR CALL
K7VZ	Virgil Silhanck	
N7NGM	Rex Mauldin	N7NCM
W8RH	Bob Howard	WY7H/KC7KF/W8RH
